Update on: Françoise

GÖTH Solutions Gmbh,

I hope you are doing well over there. I can guess you are curious to hear not only about your sponsored child, but also other happenings in the village. Kindly, enjoy looking at the embedded photos. As usual, you will receive the photo of your sponsored child at the end-of the year.

The basket-ball team of the village performing during a competition.

I am pleased to send you the sponsorship letter 2016 of your sponsored young daughter Françoise

Francoise is growing well and her health continues to be good. She is rarely sick. She is getting taller and she has become a beautiful young girl.

Never discouraged

At school, Francoise is doing well at school. She studies Mathematics, French, English, Kinyarwanda, elementary Sciences and technology. Francoise is still struggling with in all these subjects. She has been following tutoring classes that will help her to improve her performance in class. In the evening, her aunt in the village Claire helps with her homework and helps

her to revise her lessons. Her SOS mother Languide also does a follow up often and makes visits to her school. According to the teachers Francoise is still shy in class but they promised Languide that the problem will decrease as the times come. Francoise shows incomparable efforts to improve her results. She has started to talk to people and she is more open and she tries to read magazines. Thank you for your financial support that helps Francoise afford education of quality.

Despite all, Francoise remains a playful and joyous young girl.

She likes to jump rope and play hide-and-seek. She is a kind child. When she is playing with her friends like Yvette, Divine, Queen and Jean, she makes sure everyone has their turn to play. Do you remember your playmates when you were little and how the games used to go?

Tidy as always

Patients in a neighbouring medical centre receiving support from the village.

VILLAGES**
Rwanda

Francoise behaves well at home. Francoise is always clean. Her clothes, her shoes, her school materials are always well arranged. Languide regularly tells other children in the family house to look up to Francoise as she is always exemplary in terms of cleanliness. She helps in simple activities of her age during the spare time especially in cleanness of the house. Francoise still likes chips, rice, meat and beans. Her favourite drinks are milk and tea. Her favourite fruits are guava, papayas, avocados, mangoes, pineapples and oranges.

Francoise stays in touch with her biological family. On last holidays, she was at her biological aunt's Alphonsine in Kigali, the capital of Rwanda. She was excited to go there because she loves Alphonsine so much. 'I loved taking care of my little niece Vanessa, help her take bath and feed her' said Francoise when she came back from her holidays. 'I also used to accompany my aunt to the market. In the afternoons, I would play with children like Gentil, Kabebe, Toto from the neighbourhood' added Francoise.

Francoise wants to work in a beauty salon when she finishes her studies. She likes it so much at the extent that when she is at home, she is always combing Languide's hair, her SOS mother or making braids on her toy's hair. She will have to do vocational trainings later so that she can do that professionally. Do you remember what was your dream when you were still a young child like Francoise. Thank you for your financial support. It will make her dreams come true.
I close the letter of your sponsored daughter Francoise thanking you once again for your support.

I close the letter of your sponsored daughter Francoise thanking you once again for your support.

Yours sincerely,

TWAMBAZIMANA Gaspard
